About me

I'm well-versed in frontend technologies like HTML, CSS, JavaScript, and Material UI, with a talent for crafting efficient and responsive interfaces. I have a particular focus on constructing websites and applications using AI technology. Additionally, I've ventured into the field of Cyber Security and Ethical Hacking, further enhancing my expertise. Let's connect and collaborate on innovative projects!

Projects

- Movie Ticket Booking Website
- Note Application
- Password Manager Application

Certificates

- Cyber Security
- Ethical Hacking
